**Heart Wisdom Process
Beginner Practice Book**

3-Step HWP Technique: Food Addictions

1. Pick a relationship issue. Write all your thoughts and feelings about it.

Rate each thought or feeling from 0-10. 0-peaceful, no stress. 10-most stress.

Ex: Chocolate is addictive...I have not self-control...I can't stop eating ...etc.

2. Set an intention to connect to the right side of the (physical) heart and ask the Subject 'I' to dissolve all thoughts, feelings, negativity by repeating 'I..I..I...etc.'. The right side of the heart organ is the center of the body if you look at it visually. The key is to repeat 'I' and hold the intention to connect to the greater universal intelligence asking for help to dissolve the thoughts, feelings, and any negativity that may arise in the process.

Another way is to imagine all the thoughts and feelings dissolving into the 'I' as you repeat in silence 'I...I...I...etc.'

As you continue to do the work, you notice different thoughts and feelings come up and arise as you repeat 'I'. Then, you repeat the steps 1-3 for all the new layers of thoughts and feelings.

3. Repeat the steps for all the thoughts and feelings until mind and body quiets and calms down. Then, you will start to experience silence and peace.

It is normal to experience physical and emotional releases such as sensations and discomforts. Apply for steps for any sensations and discomforts.

How to Permanently Break Food Addictions

Surface Programming

Deeper Programming

Deepest Programming

Your food addiction is only the surface symptom of deeper problems. If you continue to do this work, you will find emotions such as anxiety, frustration, anger, or other stressors come to the surface. If you work through the thoughts and feelings connected, there will be a reduction of the food cravings. If you persist with this work and get to the deepest layers, you become conscious of unconscious beliefs such as 'I am not loved... I am not enough... I am not safe...etc.' They are connected to the sufferings and wounds of your own life, parents, ancestors, collective culture or nation held in the body subconsciously as unprocessed physical tension. Doing the process can permanently remove beliefs and deepest programmings. You will notice permanent changes when you experience the body releasing emotions, tears, having physical discomfort, etc. If this happens, stay present and observe. It is a very good sign that the body is letting go of old patterns. If you notice detoxing and you need further support, then contact an HWP Master Practitioner and you can guide you through the release process.

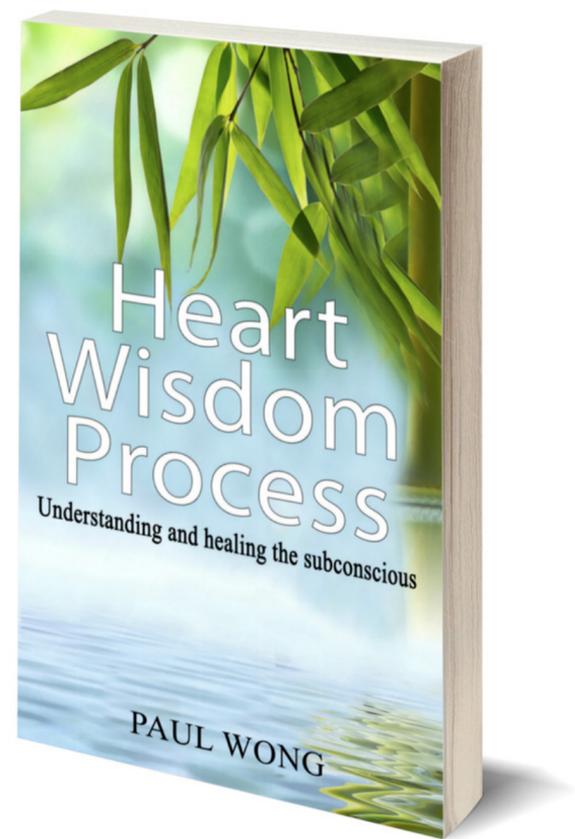

Not addressing the deepest programming of food or other addictions can lead to bigger problems in life and they may be played out as weight gain, diabetes, chronic pain, relationship and financial difficulties and other problems. If the deepest causes are resolved, then you start to break deep-seated repeated patterns.

The nature of this work is to get you to *gently* confront your deepest programming. They may be deep forgotten resentments and unconscious insecurities. You must come to peace with them whether they are yours, parents, or ancestors. If you do resolve the old wounds permanently, you will not only help yourself and immediate family but also future generations held in the DNA.

To see if you are on-track, refer to Key Life Lessons in the HWP Workbook: How to Break a list of questions to have truly resolved the deepest programmings. It took me years to learn and have helped many other clients!
